

Appendix 7: Charts comparing all feedstocks

Moisture Content of all feedstocks

Net Calorific Value of all feedstocks

Gross Calorific Value (DAF) of all feedstocks

Dry Ash content of all feedstocks

Dry nitrogen content of all feedstocks

Dry chlorine content of all feedstocks

Dry sulphur content of all feedstocks

Barium content of all feedstocks

Beryllium content of all feedstocks

Chromium content of all feedstocks

Cobalt content of all feedstocks

Copper content of all feedstocks

Molybdenum content of all feedstocks

Nickel content of all feedstocks

Vanadium content of all feedstocks

Zinc content of all feedstocks

Arsenic content of all feedstocks

Antimony content of all feedstocks

Mercury content of all feedstocks

Cadmium content of all feedstocks

Lead content of all feedstocks

Fluorine content of all feedstocks

Bromine content of all feedstocks

Variation in ash composition of all feedstocks

Ash Fusion Temperatures for all feedstocks

Alkali Index for all feedstocks

Aluminium content of all feedstocks

Calcium content of all feedstocks

Iron content of all feedstocks

Potassium content of all feedstocks

Magnesium content of all feedstocks

Manganese content of all feedstocks

Sodium content of all feedstocks

Phosphorous content of all feedstocks

Silicon content of all feedstocks

Titanium content of all feedstocks
